UNC Kenan-Flagler is at the forefront of MBA programs in healthcare education, and has developed the Center for the Business of Health to address key industry challenges. Students build healthcare knowledge through a progressive combination of traditional MBA academic elective offerings, co-curricular activities offered by our student-led Healthcare Club, our annual Healthcare Conference, entrepreneurial initiatives with the UNC School of Medicine, and our strong relationships with healthcare recruiting organizations. Students emerge as skilled business leaders who are well prepared to solve some of the biggest challenges that face the healthcare industry.

Center for the Business of Health
UNC Kenan-Flagler Business School seeks to leverage the diversity and depth of health science expertise across the UNC-Chapel Hill campus to address key challenges facing today’s healthcare industry. UNC Kenan-Flagler is the catalyst for this university wide effort in partnership with our top-ranked schools of pharmacy, public health, nursing, dentistry and medicine. Through this collaborative powerhouse of resources and talent, UNC Kenan-Flagler continues to distinguish itself and the larger University as one of the leading national voices in education, research and thought leadership in the business of healthcare.

UNC Kenan-Flagler Healthcare Club
As one of the most active student organizations at UNC Kenan-Flagler, the Healthcare Club’s mission is to provide students with the resources, education and network necessary to today’s healthcare industry. The club organizes the annual Healthcare Conference and sponsors a variety of company panels, networking events, industry education sessions and a national case competition.

UNC Kenan-Flagler Healthcare Conference
The Healthcare Conference is the largest student-led conference at UNC Kenan-Flagler. The conference brings over 400 academics, students, alumni and prominent industry leaders to campus to discuss current issues of critical importance across all sectors of the healthcare industry.
**Healthcare Career Lab**  
Career & Leadership collaborates with Healthcare Club to hold a series of preparatory sessions throughout the fall. The sessions provide students with an opportunity to have an edge in the job search by providing content related to career development and the healthcare industry. Recent industry topics have included: Big Data, Payment, Consolidation, Consumerization, Consolidation, and Social Determinants of Health.

**MBA Career and Leadership**  
UNC Kenan-Flagler offers a broad range of career development resources including preparation courses, case studies and career treks. A dedicated Career Coach is focused on the career journey, and partners with the Employer Engagement & Recruiting Team to manage and increase opportunities in healthcare for students. The employer engagement team actively manages dozens of relationships with leading healthcare organizations.

**Alumni**  
UNC Kenan-Flagler has a broad and active network of alumni working in the field of healthcare, including the Center for the Business of Health Leadership Board, who mentors students one on one.

**Company Networking Opportunities**  
UNC Kenan-Flagler provides opportunities to network with leading healthcare professionals and major companies through a variety of events and programs in both formal and informal settings such as the annual Networking Forum held by Career & Leadership team and through the MBA Healthcare Club's Company Tailgates.

**Center for the Business of Health**  
With more than $3 trillion spent annually, the American healthcare sector is equivalent to the fifth largest economy in the world. But this booming business also faces an array of challenges: affordability, access, outcome variations and concerns about regulation and policy. UNC Kenan-Flagler Business School is working to address these complex issues head on with its Center for the Business of Health. This multidisciplinary effort spans Carolina's campus, bringing together the University's leading health sciences divisions. By building on this collaborative powerhouse of talent, Kenan-Flagler seeks to distinguish itself and the University as the destination for students, researchers, and a leading national voice in the business of healthcare.

**National Case Competitions**  
Case competitions provide students with a chance to apply their industry and business knowledge while networking with peers and professionals from across the U.S. UNC MBA students attend healthcare case competitions, such as the Business School Alliance for Health Management (BAHM) Case Competition. Recently, the MBA Healthcare Club hosted 50 graduate students from across UNC's top health schools for the internal Healthcare Case Competition. In 2018, the Healthcare Club hosted their first national case competition, which included teams from Duke University, University of Michigan – Ann Arbor, Indiana University Bloomington, Case Western Reserve University and Emory University. The competition challenged participants to develop innovative solutions to address diabetes in rural communities.

**STAR Healthcare**  
UNC Kenan-Flagler offers opportunities for students to work with healthcare companies and organizations to solve complex business problems through the STAR (Student Teams Achieving Results) program. Students take on the role of consultants to real companies in order to develop consulting skills for their future careers in the business of healthcare.

“Carolina believes in collaboration in a way that not every university does. Healthcare is increasingly an interdisciplinary issue, and the real challenges facing healthcare are not going to be solved by any one person. As we figure out the science of how to do things better, there is the opportunity to improve health outcomes, reduce costs and improve access for more patients.”
